**We are collecting quality used clothing for people of all ages! The weather is mostly hot, however, in the winter months the temperatures can drop into the 40's and occasionally the low 30's and many folks are living in homes made of cardboard & tar paper with no heating! Coats, jackets, sweaters, shoes, belts, caps, jeans and winter clothes are great along with the stuff for the other hot, hot, hot 10 months of the year!!**
